1/ Represents changes over the previous year. Percentages computed from the unrounded numbers for the same group of markets comparable in the two periods. Data for 1984 adjusted to a 365-day basis before computing percent changes. 2/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1985-86, and for which the data were not affected significantly by marketing area changes; excludes Central Arkansas-Fort Smith, St. Louis-Ozarks, Southern Illinois, Southwest Plains, and New Orleans-Mississippi. Also excludes Michigan Upper Peninsula for which there were fewer than three handlers. 3/ Average or total.

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources.
2/ Plain, flavored, and miscellaneous whole milk products.
3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.
4/ Light, heavy, and sour cream and cream dips.
5/ In addition to listed fluid milk and cream products, includes eggnog and yogurt.
6/ Represents changes over the previous year. Percentages are based on the data for all markets combined. Data for 1984 adjusted to a 365-day basis before computing percent changes.
7/ Figures include St. Louis-Ozarks.
8/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percent changes based on comparable markets, see table 10.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated.

2/ Includes, in addition to listed manufactured products, milk, skim milk, and cream used in other manufactured products: i.e., evaporated milk; condensed milk; whole milk powder; aerated, frozen, and plastic cream; milk, skim milk, and cream used in food products as well as used in animal feed; dumped or spilled; plant loss; and unidentified.

3/ Represents changes over the previous year. Percentages are based on the data for all markets combined. These changes are based on pounds of butterfat, except for nonfat dry milk which is based on pounds of skim milk. Data for 1984 adjusted to a 365-day basis before computing percent changes.

4/ Figures include St. Louis-Ozarks.

5/ Represents the data for all Federal milk order markets, except for New York-New Jersey. For percentage changes based on comparable markets, see table 12.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, solids added, flavored, and miscellaneous lowfat and skim milk products, and buttermilk.

4/ Represents changes over the previous year. Percentages are based on the same group of comparable markets in both years. Data for 1984 are adjusted to a 365-day basis before computing percent changes.

5/ Adjusted to eliminate variation in data due to calendar composition and seasonality. See special article in FMOS-308, August 1985 Summary.

6/ Volume figures include St. Louis-Ozarks.

7/ Represents the data for all Federal milk order markets except for New York-New Jersey and New Orleans-Mississippi. Data for April and May are estimated.

1/ Prices are for 100 pounds of milk of 3.5 percent butterfat content. Prices are listed generally for the major city in the marketing area; see footnotes on page 24 for these locations.

2/ The fluid differential is the amount added to the basic formula price to determine the Class I price. The basic formula price is the Minnesota-Wisconsin price for the second preceding month adjusted to a 3.5 percent butterfat content. See table 18. The fluid differentials shown for New England, New York-New Jersey, and Michigan Upper Peninsula reflect location adjustments. The fluid differentials specified in the orders for these months are: New England - $2.28, New York-New Jersey - $2.25, and Michigan Upper Peninsula - $1.15.

* For these marketing areas, for January-February 1985, the Class I price was increased 20 cents due to order amendments. 1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the mrketing area. See footnotes on page 24 for location at which price is reported. All averages are weighted. 2/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1985-86, and for which the data were not affected significantly by marketing area changes; excludes Central Arkansas, New Orleans-Mississippi, St. Louis-Ozarks, Southern Illinois, and Southwest Plains where applicable. Also excludes where applicable Michigan Upper Peninsula for which the data used to weight the monthly prices were restricted. 3/ The Federal milk order including this marketing area was terminated on April 1, 1985. 4/ Also excludes Black Hills and Fort Smith for which the data used to weight the monthly prices were restricted.

1/ Excludes Southeastern Florida; Class III only applies to the skim milk portion of all milk disposed of for fertilizer or livestock feed or dumped. Also excludes Lake Mead for which the data were restricted. Otherwise, all orders which have three classes of utilization are shown. Producer deliveries of milk used in Class III can be determined by subtracting from total producer deliveries as shown on table 4, the appropriate figures on table 5 and this table. 2/ The termination of the St. Louis-Ozarks Federal milk order on April 1, 1985 affected significantly the comparability of the data for these neighboring marketing areas. 3/ The Federal milk order including this marketing area was terminated on April 1, 1985. 4/ The data for Central Arkansas and Fort Smith have been combined in order to mask the data for Fort Smith which were restricted.

1/ The data for 1986 was restricted. 2/ The termination of the St. Louis-Ozarks Federal milk order on April 1, 1985 affected significantly the comparability of the data for these neighboring marketing areas.

3/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1985-86, and for which the data were not affected significantly by marketing area changes; excludes Central Arkansas-Fort Smith, New Orleans-Mississippi, St. Louis-Ozarks, Southern Illinois, and Southwest Plains where applicable. Also excludes Michigan Upper Peninsula where applicable. See 1/. 4/ The data for Eastern South Dakota and Black Hills have been combined in order to mask restricted data. 5/ The Federal milk order including this marketing area was terminated on April 1, 1985. 6/ The data for Central Arkansas and Fort Smith have been combined in order to mask the data for Fort Smith which were restricted.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ Plain, flavored, and miscellaneous whole milk products.

3/ Plain, fortified, flavored, and miscellaneous skim and lowfat milk products, and buttermilk.

4/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1985-86, and for which the data were not affected significantly by marketing area changes; excludes New Orleans-Mississippi and St. Louis-Ozarks where applicable. Combined Areas also excludes New York-New Jersey.

5/ Figures adjusted to eliminate variation in data due to calendar composition. See special article in FMOS-308, August 1985 Summary.

6/ Estimated.

BEST COPY AVAILABLE

FOOTNOTES FOR TABLE 2.

* For these marketing areas, the Class I price was increased 20 cents due to order amendments. See "Major Order Actions" in FMOS-297.

1/ Prices are for milk of 3.5 percent butterfat content and for the major city in the marketing area. All averages are weighted.

2/ For those markets which have base-excess plans (see table 14) the prices represent a weighted average of the base and excess prices.

3/ Zone 1 (Boston). Price at 201-210 mile zone: Class I and blend, 72 cents less. Class I and blend price at Hartford, 10 cents less.

4/ New York metropolitan area. Price at 201-210 mile zone: Class I and blend, 59 cents less, Class II, 8 cents less.

5/ Philadelphia, Baltimore, and Washington, D.C. Price excludes a 6-cent direct delivery differential applicable to milk delivered to the Philadelphia area.

6/ Atlanta.

7/ Zone 2 (Birmingham).

8/ Jacksonville and Tallahassee.

9/ Miami.

10/ Applies to the skim milk portion of all milk which is either disposed of for fertilizer or livestock feed or dumped.

11/ Zone 2 (Marquette).

12/ Individual handler pool. Blend prices are weighted averages of all handlers.

13/ Zone 1 (Detroit). Price excludes a 10-cent direct delivery differential applicable to milk delivered to the Detroit area.

14/ Zone 1 (Erie, Pa.). Class I and blend price at Cleveland (zone 3) 8 cents more; at Pittsburgh (zone 4) 10 cents more.

15/ Central zone (Cincinnati and Columbus).

16/ Indianapolis.

17/ Zone 1 (Chicago). Class I and blend price at Milwaukee (Zone 4) 9 cents less.

18/ Peoria.

19/ Base zone (Alton). Class I and blend price at Carbondale (Southeastern zone) and St. Louis, Missouri, 7 cents more.

20/ Figures are based on the same group of comparable markets--markets where the orders were in effect the entire period 1985-86, and for which the data were not affected significantly by marketing area changes; excludes Central Arkansas, New Orleans-Mississippi, St. Louis-Ozarks, Southern Illinois, and Southwest Plains where applicable. Also excludes where applicable Michigan Upper Peninsula for which the data used to weight the monthly price were restricted.

21/ Zone 1 (Minneapolis).

22/ Sioux Falls.

23/ Zone 1 (Des Moines). Class I and blend price at Rock Island, Ill., 7 cents less; at Waterloo, 16 cents less.

24/ Zone 1 (Omaha).

25/ Kansas City and Topeka.

26/ Zone 1 (St. Louis and Springfield). The Federal milk order including this marketing area was terminated effective April 1, 1985.

27/ Bristol, Chattanooga, and Knoxville.

28/ Little Rock.

29/ Zone 1 (Oklahoma City). Class I and blend price at Springfield, Mo., 38 cents less.

30/ Amarillo.

31/ Zone 1 (Dallas). Class I and blend price at Houston 36 cents more in 1985, 54 cents more in 1986.

32/ Monroe and Shreveport.

33/ Zone 1 (New Orleans).

34/ Denver.

35/ Grand Junction.

36/ Boise, Idaho.

37/ Salt Lake City, Utah.

38/ Las Vegas, Nev.

39/ Phoenix.

40/ Albuquerque, Santa Fe, and El Paso.

41/ Zone 1 (Seattle).

42/ Portland.

43/ Also excludes Black Hills and Fort Smith; the data used to weight the monthly prices were restricted. Black Hills prices: Class I 1986, $13.13 and 1985, $14.47; Blend 1986, $12.06 and 1985, $13.33; Class II 1986, $11.04. Producer differential 1986, 15.9¢, Class I differential, 1986, 16.7¢, and Class II differential, 1986, 15.3¢. Fort Smith prices: Class I 1986, $13.13 and 1985, $14.47; Blend 1986, $13.03 and 1985, $14.31; Class II 1986; $11.25; Class III 1986, $11.04. Producer differential 1986, 16.0¢.

44/ A weighted average price for milk in excess of Class I needs calculated as follows: (producer deliveries used in Class II times the Class II price) plus (producer deliveries used in Class III times the Class III price) divided by (total producer deliveries in excess of Class I needs) would be $11.08.

* May include small amounts of miscellaneous whole milk, and lowfat and skim milk products.

1/ In-area sales include total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated.

2/ See table 8 for marketing areas included; excludes New York-New Jersey and New Orleans-Mississippi.

3/ Figures are adjusted to eliminate variation in data due to calendar composition. See special article in FMOS-308, August 1985 Summary.

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources.
2/ See table 8 for marketing areas included in each region. Total of Regions excludes New York-New Jersey. Also, see 7/ and 8/.
3/ Plain, flavored, and miscellaneous whole milk products.
4/ Plain, fortified, flavored, and miscellaneous skim and lowfat milk products, and buttermilk.
5/ Light, heavy, and sour cream, and cream dips.
6/ In addition to listed fluid milk and cream products, includes yogurt and eggnog.
7/ These sales volumes include the data for all markets regardless of comparability status. See 8/.
8/ Percent changes over the previous year are based on the same group of comparable markets--markets where the orders were in effect the entire period 1985-86, and for which the data were not affected significantly by marketing area changes; excludes Fort Smith, New Orleans-Mississippi, St. Louis-Ozarks, Southern Illinois, and Southwest Plains where applicable.

1/ Includes producer milk and other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Other source milk at regulated plants includes bulk transfers and diversions from other Federal orders, and receipts from unregulated sources. Some of the data are preliminary and partially estimated. 2/ See table 8 for marketing areas included in each region. Total of Regions excludes New York-New Jersey. Also, see 4/ and 5/. 3/ Includes, in addition to listed manufactured products, milk, skim milk, and cream used in other manufactured products: i.e., evaporated milk; condensed milk; whole milk powder; aerated, frozen, and plastic cream; milk, skim milk, and cream used in food products as well as used in animal feed; dumped or spilled; plant loss; and unidentified. 4/ These sales volumes include the data for all markets regardless of comparability status. See 5/. 5/ Percent changes over the previous year are based on the same group of comparable markets--markets where the orders were in effect the entire period, 1985-86, and for which the data were not affected significantly by marketing area changes; excludes Fort Smith, New Orleans-Mississippi, St. Louis-Ozarks, Southern Illinois, and Southwest Plains where applicable. These changes are based on pounds of butterfat, except for nonfat dry milk which is based on pounds of skim milk. 6/ Less than 500,000 pounds.

1/ This pricing provision is currently in effect in 39 marketing areas. Three separate differentials and tentative prices are computed. For ease of presentation, these marketing areas have been grouped as follows: Group A: Alabama-West Florida, Central Arizona, Central Arkansas, Central Illinois, Chicago Regional, Eastern Colorado, Eastern Ohio-Western Pennsylvania, Eastern South Dakota, Fort Smith, Georgia, Great Basin, Greater Kansas City, Greater Louisiana, Indiana, Iowa, Louisville-Lexington-Evansville, Lubbock-Plainview, Memphis, Nashville, Nebraska-Western Iowa, New Orleans-Mississippi, Ohio Valley, Paducah, Rio Grande Valley, Southern Illinois, Southwest Plains, Southwestern Idaho-Eastern Oregon, Tennessee Valley, Texas, Texas Panhandle, Upper Midwest, and Western Colorado. Group B: Lake Mead, Southeastern Florida, Southern Michigan, Tampa Bay, and Upper Florida. Group C: Oregon-Washington and Puget Sound-Inland.

2/ Price at 3.5 percent butterfat content for the second preceding month.

3/ Total weighted change in gross values of milk used to produce Cheddar cheese and butter/nonfat dry milk.

4/ As announced on the 15th of the preceding month. The final (effective) Class II prices are announced on the 5th of the following month.

1/ "Consumer Prices: Energy and food," BLS, U.S. Department of Labor. Regions are defined as the four census regions. According to BLS, average prices are best used to measure the price level in a particular month, not to measure price change over time. To measure change over time, the Consumer Price Index and its component indexes for individual items are more appropriate. The average food prices included in this table reflect variations in brand, quality, and size among geographic areas. BLS suggests that users of average food prices should be aware that these differences exist.

2/ Prices are per 1/2 gallon.

3/ Prices are per pound for Grade AA, salted, stick butter.

4/ Prices are per 1/2 gallon for prepackaged, bulk, regular.

5/ Prices are per 1/2 pint for natural, fruit flavored.

6/ Prices are per pound for Process, American cheese in any size and type of package.

7/ Prices are per pound for Natural, Cheddar cheese in any size and type of package and variety (sharp, mild, smoked, etc.)

SUMMARY OF MAJOR ORDER ACTIONS, FEBRUARY 1986

Temporary Revision:

Southwest Plains - February 26 (51 FR 6730, 2/26/86). This action further continues a revision of the percentage of milk marketed by a cooperative association that must be physically received at pool distributing plants. The requirement is reduced 10 percentage points, from 50 to 40 percent. The extension of the temporary revision is for the period beginning March 1986 and continuing until the completion of the hearing proceding on this issue.
